Why are you interested in being a member on this Board/Commission?	I am aware that the Clear Creek County Open Space Commission is in need of members to fill vacancies. I have often considered applying to CCCOSC and currently have the time and interest. I have been involved in the issue of CCC Open Spaces for 50+ years. I believe I would bring to the commission knowledge and experience.

enthusiast and enjoy all our county has to offer in terms of natural resources. I am outgoing and generally have very positive relationships with people I with whom I an involved in organizations or my personal life. I truly care about the future of this county as we face multiple challenges going forward.

What current topics about the County concern you? (e.g., development, preservation, economy, revenues, housing, workforce, etc.):

I am concerned about the possibility of Clear Creek County becoming a bedroom community or a suburb of Denver, however, I know there is a need for housing for our workforce. I am committed to preserving the natural beauty and environment that makes our county a wonderful place to live and also very attractive to our neighbors. I know the economic challenges currently facing the county are burdensome and will require extreme ingenuity in order to manage present and future demands while maintaining the quality of life for residents. I believe we have a unique character worth preserving, we are different from any county in the state, and we can create a future that maintains as much of that character as possible.

Do you have any past involvement or experience with the County? (e.g., building permits, land use process, volunteerism, etc.)

Extensive volunteering in all the above-named local organizations. Specific involvement in providing input on the Beaver Brook Watershed Management Plan prior to Forest Service Ownership. Volunteer Coordinator for Friends of the Beaver Brook Watershed scheduling and managing individuals to patrol the property when it first became open to the public. Worked with Mountain Area Land Trust on documenting and photographing the BBW for a conservation easement. Worked with Beaver Brook volunteers, Forest Service and Clear Creek County on weed management of the Watershed property. Worked on numerous SOLVE fundraisers such as the Earth Day Concession Booth and on race timing for the Flaming Foilage Relay races.
