Dear Superintendent Lancaster,

The Clear Creek Veteran's Coalition would like to increase our participation in your schools and improve our already solid partnership between the District and local veterans. Our main objectives are to assist the schools in celebrating, and appropriately recognizing, important historical events and veteran-related days of remembrance. We would also like to present the students with some examples of patriotism and selfless acts of service veterans of Clear Creek County, our Colorado and the nation have achieved. We believe the opportunities to serve what we have to offer directly support the District's initiatives in student character development.

To that end, the Clear creek County Veterans Coalition respectfully asks to meet as a group with your principals prior to the start of the school year. We would like to discuss important dates to honor our veterans, begin the planning process to give these events the attention they deserve, brainstorm other ways in which we can build our partnerships and determine how we can support your character development programs.

We appreciate the selfless and tireless service of your teachers and are eager to partner with them to educate and develop our nation's greatest asset.... our youth. We look forward to working with you and your schools.

Sincerely,

A handwritten signature in black ink, appearing to read "G. Clark", is written in a cursive style.

George Clark
Chairman, Clear Creek County Veterans Coalition
